

Unit owners

Starting on Monday October 31st and continuing Tuesday November 1st, all the paver areas in River Club will be deep cleaned, re sanded and sealed.

The pool area and the walkway opposite the club house will be closed both days. Notices will be posted but do not enter these areas on these days. Your cooperation is appreciated.

The phase one paver walkways will be worked on during the same period, Oct 31st thru Nov 1st. At times safe access will be limited. During the process the area may be slippery. You do not want to track the cleaning solution or the sealer into your condo. Please pay attention to the work going on at any particular time during the process and conduct yourself in a responsible manner. If you have a parking spot in line with the paver walkway you should park your car elsewhere during this process.
